

SSKN  
FIRM

# LIP FLIP

Sometimes, the upper lip curls in when they smile, making it disappear. A quick and simple way to fix this problem is a few units of Botox in the muscles above the upper lip!

Using botox above the upper lip helps relax the muscles, which prevents the upper lip from curling in while smiling! This is a great way to balance your smile and look a bit poutier while looking natural.

Because you move your mouth so much every day (between talking, singing, eating, etc), the botox wears off a little faster than it typically does in other parts of the face. The botox lip flip lasts around 2-3 months on average before you have to come back for a touch-up!

# BBL

Trained by Dr. Ducu from London, England  
The non-surgical BBL, Is a Non-Invasive  
technique that can be used for: Buttocks  
and Calves augmentation for asymmetries,  
filling hip-dips, and/or remodelling. Dermal  
fillers are used to correct volume loss,  
shape, contour and reduce the appearance  
of fine and/or deep asymmetries.

# KYBELLA FAT MELTING

Sskin firm offers Kybella that can now permanently melt that fat so you never have to worry about it again! Kybella has been specially formulated to target submental fat (also known as a “double chin”)

The active ingredient in KYBELLA® is synthetic deoxycholic acid. Deoxycholic acid is a naturally occurring molecule in the body that aids in the breakdown and absorption of dietary fat.

Kybella fat melting enzyme is perfect for double chin and other stubborn fat areas. When injected into the fat beneath the chin, KYBELLA® destroys fat cells, resulting in a noticeable reduction in fullness under the chin. Once destroyed, these cells can no longer store or accumulate fat, so further treatment is not expected once you reach your desired aesthetic goal.

# KYBELLA® FOR THE BODY

Although Kybella was originally created to target the double chin fat, advanced injectors at Sskn Firm have started use it to slim down other parts of the body. Areas such as bra fat, back fat, pubic fat, inner thigh fat, and more have been slimmed down. If there's a stubborn area of fat that's bothering you, one of our nurses can help you choose if this is the right treatment for you.

The following are specific areas that we can inject:

- Submental (under the chin/double chin)
- Bra Fat Roll / Armpit Fat
- Stomach
- Banana Roll (area beneath the buttock)

# CHEEK FILLER

Cheek filler is one of our favourite way's to lift the face and create definition. The face loses volume as we age, but filler is our secret hack to fill in lost volume and collagen. Lots of patients come in with the problem of heaviness around their mouth and they think they need filler in their smile lines, but they really need a mini lift with cheek filler!

Our advances nurses at Ssknfirrn typically use Teoxane to sculpt and define the cheeks. Teoxane is a Hyaluronic acid based filler that mimics the natural Hyaluronic acid found in your skin! All cheek fillers last 12+ months, and you will probably return for a touch up around 9 months!

# JAWLINE SCULPTING

A strong jaw is a great way to balance and frame the face. Jawline filler is perfect to provide a cool, sculpted look and help you get every model's angles that you've ever wanted! Jawline filler is also great to pull back on any sagging in the lower face and help you stay looking youthful as you age. Nurse Jannit's filler of choice for the jawline is Teoxane RHA, which is a strong filler perfect for providing a definition.

# NON SURGICAL RHINOPLASTY

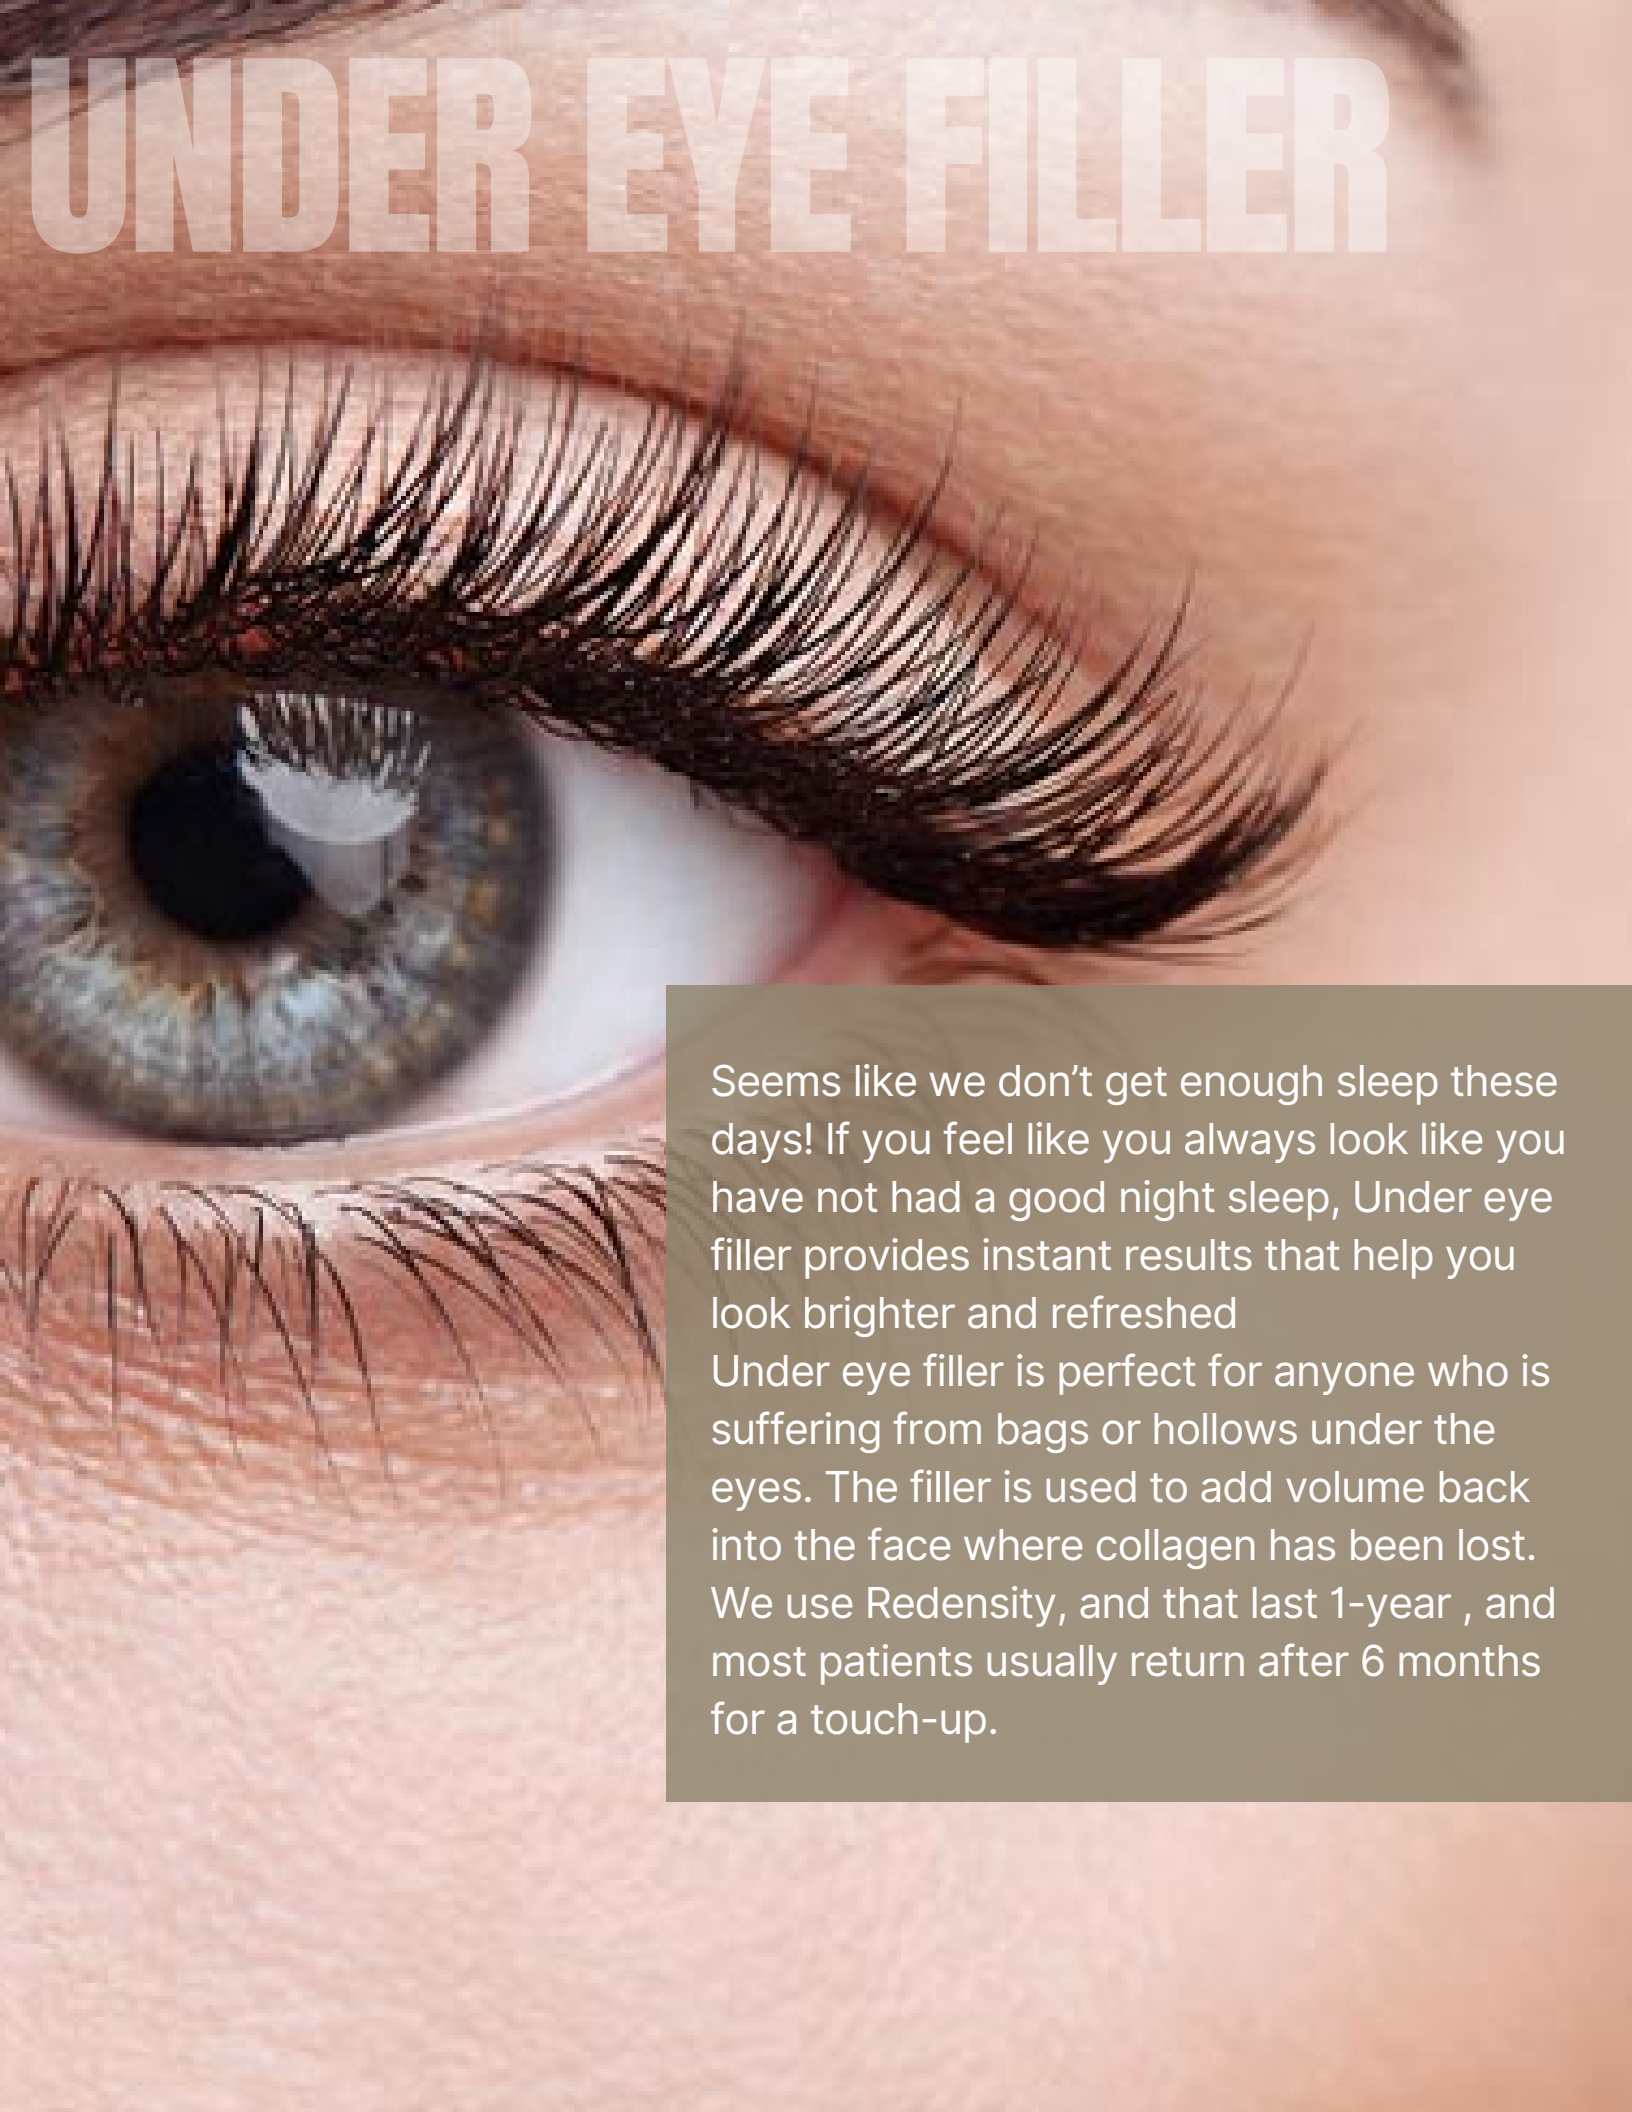

If you've always dreamed of a nose job, but are not ready to undergo plastic surgery, or the down time – this is the procedure's for you! Our advanced nurse's non-surgical rhinoplasty takes 30 minutes and provides instantaneous, beautiful results. Our nurse expertly placed filler to provide subtle changes to the nose

We also provide the "Tinkerbell Lift Tip" for a perfect way to get a cute nose. In addition to altering the tip, our nurses can shape the bridge of the nose to smoothen any bumps or ridges.

Please be aware that this is an advanced procedure. Only our advanced nurse injectors can provide this treatment.

# UNDER EYE FILLER

Seems like we don't get enough sleep these days! If you feel like you always look like you have not had a good night sleep, Under eye filler provides instant results that help you look brighter and refreshed

Under eye filler is perfect for anyone who is suffering from bags or hollows under the eyes. The filler is used to add volume back into the face where collagen has been lost. We use Redensity, and that last 1-year , and most patients usually return after 6 months for a touch-up.

# PRP FOR HAIR

Platelet Rich Plasma Therapy is a great solution for those with thinning hair or hair loss. When you visit our office, we first start by drawing your blood and spinning it in a centrifuge to separate your plasma, also known as “liquid gold”. With a thin needle, your own Platelet-Rich Plasma (PRP) is injected into the scalp. Then the growth factors in your blood cells do their job leading to naturally stimulating hair growth.

Our blood plasma (PRP) contains active growth factors which can promote hair growth. Helping to restore one’s confidence, the end result is a fuller, healthier head of hair.

# PRP FOR SKIN

The Meso gun along with PRP helps to encourage cell production and the natural restorative functions of the skin. Combining PRP with Meso therapy stimulates the natural mechanism of healing and produces results lasting up to 6 months. It improves hydration, elasticity of skin texture, softens fine lines and wrinkles. Collagen will be generated and will appear brighter, smoother with better skin tone and texture

# PRP UNDER EYES

PRP Injections under the eye can treat fine lines and wrinkles while looking rejuvenated. Brighten and fill the hollow under eyes.

# LASER TATTOO REMOVAL

Making it easier to eliminate unwanted tattoos, The Spectra Q-Switch is set to be the Industry standard, and best for laser tattoo removal.

There are a number of factors that must be taken into account such as the size, location, depth, and color of the tattoo before the number of treatments is decided upon. The treatment session each take from 10 to 30 minutes and most patients report no pain other than a warming of the skin and a light prickly feeling. An in depth consultation with one of our techs can walk you through this process.

Sessions are every 6 weeks.

# LASER HAIR REMOVAL

A close-up photograph of a person's leg being treated with a laser. A person wearing a blue nitrile glove is holding a white laser device labeled 'BBL' and '533' against the skin. The leg is resting on a white towel. The background is slightly blurred, showing a clinical setting.

Offering body hair removal that is nearly painless! Here at SsknFirm we offer the Soprano XL which makes for a comfortable experience when you are here for your treatment. You can now enjoy beautiful smooth skin and say bye to shaving, plucking, and waxing!

This treatment is for everybody and every sskn tone!

6-10 Treatments are recommended, 4-6 weeks in between sessions.

# HYDRAFACIAL

The HydraFacial is a gentle medical grade all-inclusive treatment that unclogs pores, purifies and deeply cleanses the skin better than any other treatment for instantly glowing skin, without irritation or downtime. Unlike traditional microdermabrasion treatments which can irritate your skin and leave impurities behind, Hydrafacial MD clears away all the dirt and debris from your face. Your pores will be unclogged and your skin will be treated with high quality moisturizing and antioxidant products. You'll have healthy and glowing skin the minute your treatment is over, with no irritation and no downtime

# HOLLYWOOD LASER FACIAL

The Sskn Firm Hollywood Facial is a treatment we offer that can assist with issues associated with pigmentation, age spots, acne, wrinkles and large pores. It also helps to brighten the skin and complexion resulting in a more even skin tone. The carbon laser facial is very popular in Asia and is sometimes referred to as the China Doll Facial.

- Improvement in pore size
- Improvement in active acne
- Increased tone of the skin
- Collagen and elastin stimulation
- A cleaner complexion
- Reduces fine lines and wrinkles
- Tightens dilated pores
- Reduces acne, scars and post acne discolouration
- Removes dead skin cells from the superficial epidermal layer
- Improves skin texture
- Restores skin integrity and radiance

# LASER GENESIS

Laser Genesis skin therapy is an innovative, technologically advanced way to promote vibrant and healthy looking skin in men and women. This non-invasive laser uses a 1064-nanometer wavelength to gently heat the deep layers of the skin, stimulating collagen production and promoting a smoother complexion. You can have a more youthful appearance by treating those conditions that are typically associated with premature signs of aging and sun damage, such as excessive redness, large pores, uneven texture, and fine line wrinkles. The Laser Genesis procedure has been scientifically proven to produce new collagen

# MELASMA

A close-up photograph of a woman's face, focusing on her eyes and the area around them. She has brown eyes and is looking slightly to the right. Her skin is fair with numerous small, dark brown spots (melasma) scattered across her forehead, cheeks, and around her eyes. Her hand is visible near her chin, with fingers slightly curled.

Melasma and pigmentation issues can be frustrating and difficult to treat! The Spectra™ laser is one of the few lasers that can treat melasma without making it worse.

This laser reduces pigmentation and evens out skin tone. It is one of the only FDA-approved lasers to treat melasma and is safe for all skin types, including olive-toned or darker skin that may be harmed by other lasers. The wavelength and short, quick, nano pulses are unique to the Spectra™ laser and it specifically targets brown patches without excessive tissue heating – thereby preventing more pigment or worse melasma.

Treatment often see:

- A more youthful, rejuvenated appearance.
- Anti-aging benefits
- Improvement in blotchy skin
- Decreased pigment or melasma
- Overall glowing skin with skin toning

# SSKN FIRM YOGA FACIAL

# MORPHEUS 8

Morpheus8 is FDA approved, and one of the BEST anti-aging treatments that achieves youthful, plump looking skin.

It is a microneedling treatment that uses radiofrequency (RF) energy. Microneedling on its own is known to be a highly effective treatment for boosting collagen in the skin, Morpheus8 is a combination of radiofrequency which is delivered through the micro-needles, heating the deeper layers of the skin that cannot be reached with traditional microneedling. This added heat and the activation of deeper layers of the skin are what make the results of Morpheus8 magnificent!

Morpheus8 helps treat scarring, skin discoloration, and the appearance of stretch marks as it triggers the skin's healing process.

# EVOLVE

Tight, trim, and tone body contouring. Evolve Tone is an innovative, non-invasive solution designed specifically to increase muscle strength. This treatment is non-surgical, enhances the shape and tones body. And the GOOD NEWS is Evolve by Inmode is customizable and is tailored to address body specific needs, so the end result is a more defined appearance without any scarring, downtime or incisions. Multiple body areas can be treated simultaneously giving a more toned and defined physique. Toning muscles with all its innovative technologies such as tite, trim, & tone.

Evolve is the only all-in-one system equipped with multiple clinically proven technologies;

# EXOSEMES

Used for skin, and hair rejuvenation to repair damaged cells and stimulate collagen and elastin production. We highly recommend exosomes to treat facial skin, and hair follicles.

For the skin, exosomes promotes wound healing by stimulating angiogenesis and cell proliferation. For the hair, they contain growth factors and other molecules that promote hair follicle growth leading to the regrowth of hair!

# VELLA BODY

Vella Shape is a non-invasive treatment for face and body.

For the body, This treatment uses a non-surgical machine with a synergetic combination of NSP heat, LED and vacuum. NSP heats the skin right down to the deep dermal layers where we store fat. LED technology uses pulses of visible therapeutic light over many wavelengths to deliver light energy to the treatment area. The combination of these technologies provide results by heating the fatty tissues to the point that it becomes possible to manipulate the fat via the vacuum suction, mechanical massage, and eventually drained through the lymphatic system.

# VELLA BODY

Vella Shape is a non-invasive treatment for face and body.

For the face,  
The thermal therapy system reduces the appearance of wrinkles and localized fat, improving circulation, vasodilation, releasing toxins. Helping immunity maintaining the PH balance of the skin on your face. With this treatment, the skin on your face will be illuminated, hydrated and rejuvenated!

# IV DRIPS

IV Drip treatments provide the body with the essential vitamins and minerals it requires by injecting the solution directly into the bloodstream. This facilitates a very high absorption rate and, because it is fast-acting, it delivers efficient results immediately after finishing the treatment.

## Treatment Options & Benefits

Immunity

Weightloss

Antioxidant

Anti-Inflammatory

Recovery & Healing

Heart

Hydration

Skin

Brain Function

Depression & Anxiety

Energy

Cleanse

Anti-Ageing

Cell Production

## Boost IV Drip

hydrate | replenish | enhance \$125

This IV drip was created for hydration, vitamin and mineral replenishment. The key components include vitamins A, B, C, D, E and potassium.

IV Boost also offers an overall wellness enhancement, by helping with something as common as dehydration and mineral deficiencies in the body, which can lead to the malfunction of many of its processes. (bonus: very helpful for hangovers, and for athletes)

## Energy IV Drip

energize | regenerate | strengthen

This IV drip was developed to provide the necessary vitamins and minerals for adequate energy levels. The key components in this solution are dextrose combined with B vitamins and magnesium, all of which are crucial in the production of adenosine triphosphate (ATP), the cellular energy source. Moreover, IV Energy improves the levels of vitamins and minerals which help regenerate cells and correct deficiencies such as: anemia, insomnia, electrolyte imbalances, stress and thyroid conditions, strengthening the body's ability to take on daily challenges. (bonus: very helpful for athletes)

## Immune IV Drip

protect | repair | supercharge

This IV drip was developed to supply the necessary vitamins, minerals and amino acids for improved immune function, which enhances the body's ability to protect itself -including fighting infections, healing efficiently, repairing cells, and recovering faster.

Additionally, IV Immune provides an effective electrolyte balance and it is isotonic to blood, giving the immune system a functioning boost. The key vitamins in this treatment are vitamins A and D along with high levels of vitamin B and C.

## High C IV Drip

repair | protect | grow

Vitamin C is known for its role in strengthening the immune system. There are also many other benefits of this vitamin that help preserve the skin's collagen levels, which can contribute to faster healing of scars and wounds while promoting more collagen production. Vitamin C has been found to improve the development and replacement of tissue. Studies have also shown a correlation between Ascorbic Acid and its ability to aid iron absorption.

## Radiance IV Drip

refine | illuminate | refresh

This IV drip was created to provide a youthful glow to the skin, enhance its elasticity and target fine lines and wrinkles. It is the perfect pick-me-up when the skin looks dull and in need of a refresh, allowing it to regain its brightness from within.

IV Radiance offers a powerful combination of amino acids that also have antioxidant properties, such as Arginine, Histidine, Methionine, Lysine, and Glutamic Acid, which triggers the body to produce its own Glutathione, an important antioxidant that prevents cellular damage by neutralizing free radicals and reducing signs of aging.

## Build IV Drip

build | improve | protect

This IV drip makes bone-building cells more active and enhances the production of collagen. It also normalizes hormonal stress responses in humans with high-trait anxiety. It also helps improve blood flow in heart arteries and helps in liver diseases such as cirrhosis and fatty liver. It can also be a treatment for erectile dysfunction too.

## Mega IV Drip

vitalize | promote | improve

This IV drip is the perfect way to ensure your body gets all of the essential vitamins it needs, even if they're not present in your diet. It offers a unique combination of many everyday nutrients that help treat vitamin deficiency caused by illness, pregnancy, or poor nutrition - providing an efficient way to reach your nutritional goals. Also, it has been found that multivitamins accelerate the wound-healing process. Additionally, many studies suggested that multivitamins reduce the risk of getting all types of cancers.

## Glut Glow IV Drip

detox | repair | strengthen

Glutathione is a powerful antioxidant that helps fight free radicals in the body. Its levels can decline if the body isn't getting enough selenium and vitamin C, which are important building blocks for glutathione. Our IV drip is a solution to help increase glutathione levels by injecting glutathione directly into the bloodstream. There are multiple benefits of this treatment, including restoring an over-stressed immune system, reducing inflammation in the body, boosting a sluggish metabolism, and enhancing mental clarity.

## NAD+ IV Drip

detox | improve | protect

NAD+ IV drip can help increase NAD+ levels in the body by delivering it intravenously. This helps in DNA repair and maintenance in the cellular immune system. It's also essential for muscle development and recovery. Additionally, it can help with detox and addictions. Can improve mood and boosts energy and improves mental clarity, memory, and ability to focus.
